

Geological Mapping of Mars

A Workshop on New Concepts and Tools

12-14 October 2009 - Il Ciocco, Tuscany (Italy)

The Italian Space Agency (ASI), the United States Geological Survey (USGS) and the International Research School of Planetary Sciences (IRSPS) are inviting planetary geologists and mapping specialists to attend this workshop to learn, discuss, and improve the concepts and tools that are being developed for the future mapping of planet Mars.

A two-day field trip to visit Permian to Tertiary outcrops in Tuscany is planned after the Workshop. The field trip date is 15 -16 October 2009.

CONTACTS

Science and Programme

Angelo Pio Rossi, ISSI
arossi@issibern.ch

Field Trip

Gian Gabriele Ori, IRSPS
ggori@irsps.unich.it

Logistics

Stefania Celenza, IRSPS
celenza@irsps.unich.it

Adele Graziani, ASI

adele.graziani@asi.it

CONVENERS

Enrico Flamini, ASI
Gian Gabriele Ori, IRSPS
Ken Tanaka, USGS
Gerhard Neukum, FU Berlin
Angelo Pio Rossi, ISSI

COORDINATORS

GIS and Imaging
Trent Hare, Jim Skinner, Stephan van Gasselt

Geological Mapping
Monica Pondrelli, Ken Tanaka, Jim Skinner

The workshop venue is the
Il Ciocco Resort in Tuscany, Italy
